Chief, Materials Division, ORR

Evaluation of the Summary of Extracts from the Soviet Press on the Soviet North

25X1X7

The most recent edition of the referenced [redacted] publication has been examined by all of the Materials Division Branches. With the exception of the Agriculture Branch and the Ferrous Metals Branch, all Branches have indicated that the subject material has proven to be helpful and is set forth in useable form. Often times the [redacted] extracts are obtained through other channels; however, members of M/S, M/EP and M/EF have obtained information regarding their areas of interest which has not been available elsewhere. M/CH has received little of value from the Summary to date; however, in view of the significance of Noril'sk as a producer of strategic chemicals, M/CH is interested in continued receipt of the publication.
